# Eliminating Costly Employee Slips, Trips and Falls

April 8, 2010

|                    |              |
|--------------------|--------------|
| 8:30 AM - 9:00 AM  | Registration |
| 9:00 AM - 12:30 PM | Program      |

- Does your staff have slip, trip and fall injuries that result in lost time?
- Is your staff able to recognize slip, trip and fall hazards?
- Does your organization have a slip, trip and fall prevention program?

Employee injuries from slips, trips and falls are the second most frequent accident type for most healthcare providers. Injuries to the employee can be very costly for employers. Most slip, trip and fall injuries are usually preventable and avoidable if strong loss prevention measures are followed on a regular basis. This all encompassing seminar focuses on reducing slip, trip and fall injuries and covers:

- Statistics and causes of slip, trip and fall accidents
- Identification of slip, trip and fall hazards
- Types of injuries resulting from slips, trips and falls
- Risk factors inside and outside the facility
- Methods to control slips, trips and falls
- Floor maintenance information
- Preventing falls from elevations
- Winter hazards and prevention
- Guideline Form to measure slip, trip and fall severity, exposure and probability
- Prevention awareness for all employees
- Developing a safety program

## PRESENTERS

### **MARJORIE LINNIN**

#### **Senior Loss Control Consultant**

Marjorie brings over 25 years of professional experience assisting construction, hospital and other facilities to reduce losses. She is a licensed claims adjuster having worked in the insurance field for many years, and directed loss control operations at several companies significantly reducing their claims. She is a certified trainer for the National Safety Council Defensive Driving 4-hour Course and is an authorized trainer for the 501 Trainer Course in OSHA Standards for General Industry.

### **RONALD STOSAK, CSP**

#### **Senior Loss Control Consultant**

Ron brings over 30 years of direct loss control experience in the insurance industry to his assigned accounts at the Trust. His vast experience includes all lines of coverage with emphasis on healthcare, general industry and municipalities. His specific interests lie in safety program development and training. He is a certified trainer for the National Safety Council Defensive Driving 4-hour Course and is an authorized trainer for the 501 Trainer Course in OSHA Standards for General Industry. He has a Bachelor of Science Degree from Tri-State College in Indiana, and is a Certified Safety Professional (CSP). He is also a member of the American Society of Safety Engineers.

*Application has been submitted to the Connecticut Nurses' Association for approval of continuing nursing education credit (Contact Hours)*

*CNA is accredited as an approver of continuing nursing education by the American Nurses Credentialing Center's Commission on Accreditation.*
