LOSS CONTROL SERVICES RESOURCE GUIDE

The Trust has provided Loss Control services to members for over forty years. With a staff of six, our Loss Control Consultants hold several designations and certifications including; Certified Safety Professional (CSP), Associate in Risk Management (ARM), Ph.D in Safety Sciences, 501 Certified trainers in OSHA Standards for General Industry, and National Safety Council Defensive Driver Trainers. This guide outlines several free risk management resources available to our members to assist with reducing workers' compensation injuries, compliance and implementation of best practices.

Member Education Programs

The Trust offers over 40 courses throughout the year for senior leadership, managers, supervisors, and employees. Training is offered at our state of the art training facility in Wallingford and as webinars. Safety and risk management, supervisor, human resource and compliance based safety training are offered throughout the year. Courses are developed based on member feedback, loss sources, member exposures and State and Federal regulations. A current calendar and enrollment information can be found on our website at www.wctrust.com.

Registration

Visit our website at www.wctrust.com. On the right side and you'll see a box "Member Education Programs", which will list out our current offerings. Click on the title you are interested in and it brings you to a description of the class/webinar. When you're ready to register, use the "Member Registration" link on the description page to get to the registration form.
Questions? Email: losscontrol@wctrust.com.
