

# October-December 2021 Educational Webinars

The Trust is committed to providing our members and clients with educational resources covering a variety of relevant topics: OSHA compliance, safety and health best practices, COVID-19 information, supervisory and more. These are offered to our members and clients and can be viewed “live” or on demand 24 hours after the webinar has been broadcast.

We are pleased to offer more educational opportunities for our members and clients continuing with our Safety Solutions, Risk Management Series, the Safety Workshop Series and the Supervisors Toolbox. Another new series has been added; An Introduction to Safety Management Systems. This is a three part webinar series and will introduce attendees to the concepts of Safety Management Systems, which broadly defined is a systematic approach to finding and correcting workplace hazards before injuries or illnesses occur. This series is designed to bring your Safety & Risk Management program to the next level.
