MEDICAL CARE PLAN for TRUST MEMBERS

All members insured through the Workers' Compensation Trust (Trust) must participate in a Medical Care Plan sponsored by the Trust and approved by the Workers' Compensation Commission.

What is a Medical Care Plan?

A Medical Care Plan is a network of providers available to treat employees with work-related injuries or occupational illnesses. The Trust has contracted with over 700 medical providers statewide who are experienced in treating workers' compensation injuries and illnesses. The network offers high quality and prompt medical treatment to those injured workers in need of medical care. Moreover, providers in the Trust medical care plan understand the importance and value of getting injured workers back to work as soon as possible.

The Plan consists of the following specialties:

Chiropractors
First Treatment Centers
Hand Surgeons
Neurologists
Neurosurgeons

Orthopedists
Pain Management
Physical Medicine & Rehabilitation
Physical Therapists

What impact does this have on the Trust member?

Trust members have the responsibility to educate your employees that they must seek treatment from a provider within the Medical Care Plan or risk losing entitlement to workers' compensation benefits. This is done at the time of injury and also by providing "Employee Instructions". Employee Instructions, customized for your organization will be emailed to you in your welcome kit and also are available in the Report Center on our website.

In addition, you need to choose a First Treatment Center from the Medical Care Plan for your employees to receive initial care. A list of participating First Treatment Centers is enclosed.

How does a new member enroll in the Trust's Medical Care Plan?

Please complete the attached application forms and **return within 3 days** to:
